## PROFILE SUMMARY

Frontend Developer with **3 years** of experience in **Next.js** and React.js, specializing in building **scalable web applications** and **seamless API integrations**. Improved user engagement by 25% through optimized UI/UX solutions. Experienced in cross-platform development, ensuring high performance across web and mobile.

## PROJECTS & CONTRIBUTIONS

### Jolt Film                          12/2023 - PRESENT
Next JS, Node JS, React JS, iOS, Android, Roku

- **CMS & Streaming Platform** – Manages and delivers a vast collection of films.
- **Dynamic Content Management** – Allows easy film uploads, categorization, and metadata handling.
- **Optimized for Performance** – Ensures smooth playback and minimal buffering with efficient backend integration.
- **Cross-Platform Accessibility** – Supports web, mobile, and smart TV users.
- **Frontend Development** – Built using Next.js, React.js, and NextUI, focusing on responsiveness and interactivity.
- **Event Tracking & Analytics** – Integrated **Google Analytics**, Facebook Pixel, and TikTok Pixel for performance tracking.

### iMentor                          07/2023 - 01/2024
React JS, Node JS, React Native

- **Smart Matching Algorithm** – Uses advanced filtering logic to pair mentors and mentees based on compatibility.
- **Interactive Questionnaires** – Captures detailed user preferences for precise matchmaking.
- **Real-Time Notifications** – Keeps users engaged with email and in-app alerts for new matches and updates.
- **Secure Authentication** – Implements role-based access control (RBAC) for mentors, mentees, and admins.

### Hive Bariatrics                          01/2023 - 06/2023
React JS, Redux, amCharts 4

- **Interactive Data Visualizations** – Designed and implemented dynamic charts using **AmCharts 4** for tracking biometric metrics.
- **Advanced Filtering & Insights** – Enabled users to analyze trends and patterns in medical data efficiently.
- **Redux for State Management** – Ensured efficient data flow and seamless API integration with the Node.js & SQL backend.

### Diamond Connect & Baseball Cloud   10/2022 - 12/2022
React JS, Node JS, iOS, Android

- **Diamond Connect** – A CMS for managing baseball events, including scheduling, tracking, and team coordination.
- **Baseball Cloud** – An **analytics platform** providing player stats, scouting reports, and performance insights.
